

DO YOU NEED?

Learn about the appropriate number of toilets needed for your next event.

So you're thinking about placing an order for porta johns, but you have some questions. **More likely than not, one of those questions is how many?**

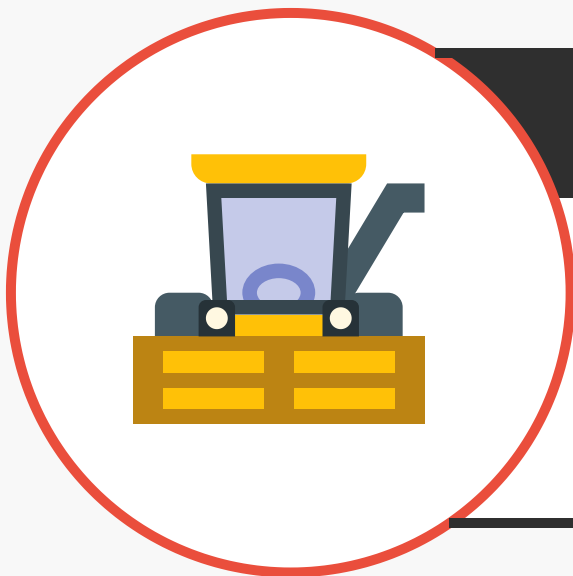

RULE OF THUMB

If you're hosting an event, the general rule of thumb is to provide at least one restroom per **every 50 people.**

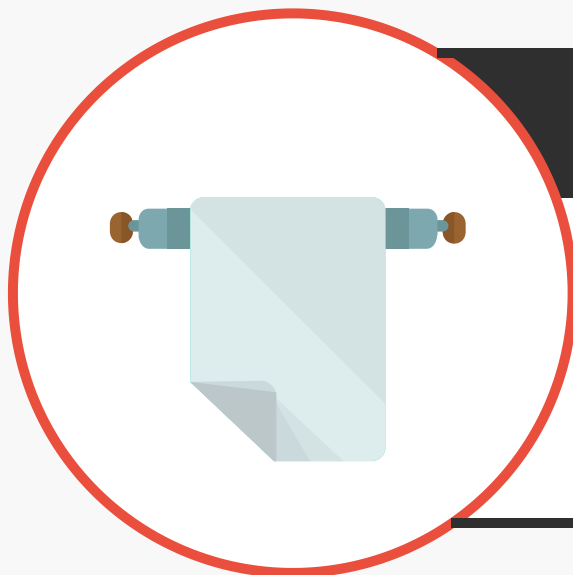

ADJUST ACCORDINGLY

The larger the crowd, the more this number needs to be adjusted.

SEASONAL RENTAL

When it comes to construction sites, seasonal, and long-term rentals, each weekly serviced toilet can accommodate ten workers (assuming each worker is working 40-hour shifts).

SPECIAL EVENTS

For special events such as weddings, concerts and festivals, each porta john unit can accommodate 150 uses—leaving 4 hours before cleaning service is needed.
